March 16, 2015

National Registry of Emergency Medical Technicians  
PO Box 29233  
Columbus, OH

Dear Sirs:

After careful examination of the Indiana Emergency Medical Technician course curriculum, it has been determined that all EMTs that have successfully completed training that complies with the curricula approved by the Indiana Emergency Medical Services Commission have received education that meets the new EMT National Standard Curriculum. Such EMTs do not require additional training to meet the NREMT certification requirements.

Sincerely,

Michael S. Garvey  
EMS State Director
